

# How to log on to the Learning Platform

All Girlguiding members and enquirers aged 14 and over will automatically have a learning platform account created from their GO account. All your learning is saved on the platform and it connects directly with GO to keep things simple. You'll need to set up a password when you log into the learning platform. You can do this in a few short steps:

Head over to the Learning Platform:  
<https://learning.girlguiding.org.uk/login/index.php>

Your username will be the same as GO.

Click on 'Forgotten your password?' to get a link to set up your password.

Use your new password to log in.

You may not receive the password reset email if certain spam filters are turned on. To make sure you receive them, please add [noreply@learningpool.com](mailto:noreply@learningpool.com) to your trusted senders list.
